### **AWWA Announces Publication of *Math for Wastewater Treatment Operators***

(Denver) – The American Water Works Association has announced the publication of two new guides for wastewater treatment operators: *Math for Wastewater Treatment Operators: Grades 1 and 2*, and *Grades 3 and 4*.

Most water and wastewater operators cite math as the subject that gives them the most trouble on their certification exams and on the job. *Math for Wastewater Treatment Operators Grades 1 and 2* and *Grades 3 and 4* were written to provide students and operators with a focused way to prepare for the many challenging math problems likely to be encountered on certification exams. The books also serve as easy reference guides to common calculations wastewater operators encounter every day on the job.

Actual certification exam questions were used to develop the many problems in these essential guides, and each book offers hundreds of math problems and solutions covering the full spectrum of wastewater treatment operations. Appendixes include common conversion factors, a summary of wastewater treatment equations, chemistry tables, wastewater flow chart diagrams, and more.

All grade levels of *Math for Wastewater Treatment Operators* are available in AWWA's online bookstore at [www.awwa.org/bookstore](http://www.awwa.org/bookstore).

**Media Note:** Review copies are available for media. Please contact Deirdre Mueller at [dmueller@awwa.org](mailto:dmueller@awwa.org) or 303-347-6140.

*Math for Wastewater Treatment Operators: Grades 1 and 2*

By John Giorgi

Published by American Water Works Association

ISBN: 1583215875

AWWA members: \$53

Retail: \$80

Catalog No. 20662

*Math for Wastewater Treatment Operators: Grades 3 and 4*

By John Giorgi

Published by American Water Works Association

ISBN: 1583215867

AWWA members: \$53

Retail: \$80

No. 20663

###

*AWWA is the authoritative resource for knowledge, information, and advocacy to improve the quality and supply of water in North America and beyond. AWWA is the largest organization of water professionals in the world. AWWA advances public health, safety and welfare by uniting the efforts of the full spectrum of the entire water community. Through our collective strength we become better stewards of water for the greatest good of the people and the environment.*
